Land Acknowledgement

The UBC Vancouver campus is located on the traditional, ancestral, and unceded territory of the Musqueam people. The land it is situated on has always been a place of learning the Musqueam people, who for millennia have passed on their culture, history, and traditions from one generation to the next on this site.

(From: <http://aboriginal.ubc.ca/community-youth/musqueam-and-ubc/>)

For CAFS in particular, we acknowledge the role that food has played as a tool of colonialism: in the form of deprivations and experimentation at residential schools; in the cost to people from all coasts in terms of resource extraction projects destroying natural food systems of Mother Earth; and to those generations of Indigenous people who have been dislocated from traditional healthy food and food memories through the corporatization of the Canadian food system, government policies and imported food. CAFS would like to recognize these ongoing histories, and attempt to form new pathways to a Canadian food system that learns from Traditional/Local and Elders' knowledge as we move towards a better way.
